

# UCOWR | UNIVERSITIES COUNCIL ON WATER RESOURCES

## WHO WE ARE

An organization of universities, non-academic institutions, and international affiliates leading in water resources education, research, and public service. UCOWR members and delegates are at the forefront of water resources-related research and education, representing fields in natural and social science and engineering.

## Linking Water Leaders of Today

### Developing Water Leaders of Tomorrow

*Lead with Us*

## OUR MISSION

*Promote research* on emerging water-related issues.

*Engage discussion* of water problems and solutions.

*Inform* the public about water issues and encourage informed decisions.

*Promote education* in water resources.

## WHAT WE CAN DO FOR YOU

- Access to the *Journal of Contemporary Water Research and Education*.
- Reduced registration fees at our annual conference held during the summer at inviting locations throughout the U.S.
- Increased networking opportunities with water resource leaders in academia, government, and business.
- Opportunity to receive a scholarship for a graduate student (from your institution) to attend the WaterSmart Innovations Conference.
- Opportunity to serve as a UCOWR delegate and have a voice in the governance of UCOWR.
