

The Universities Council on Water Resources presents:

GROUNDWATER GOVERNANCE AND MANAGEMENT RESEARCH: Connecting Researchers and Practitioners

What challenges are associated with analysis of groundwater governance and management, where authorities are decentralized and governance practices are evolving? Seminar discussion will examine these complexities at three levels, using findings from (1) two national surveys of state groundwater governance and management policies and challenges, (2) case study analysis of regional collaboration in three growing regions, and (3) transboundary groundwater assessments along the United States - Mexico border.

Dr. Sharon B. Megdal

DIRECTOR

Water Resources Research Center
The University of Arizona

College of Agriculture and Life Sciences; Cooperative Extension
C.W. and Modene Neely Endowed Professor
Professor, Dept. of Soil, Water, and Environmental Science
Distinguished Outreach Professor
Director, TRIF Water, Environment and Energy Solutions
Elected Board Member, Central Arizona Project

Tuesday, September 25, 2018, 3 p.m.

Guyon Auditorium, Morris Library

Free and open to the public

Individuals with disabilities are welcomed.
Call 618-453-5738 to request accommodations.
