

# CALL FOR ABSTRACTS

2022 UCOWR/NIWR Annual Water Resources Conference  
June 14-16, 2022, Greenville, SC

The conference planning committee is pleased to invite abstract submissions for the 2022 UCOWR/NIWR Water Resources Conference. Gaps in projected water supply and demand, declining water quality, increased food and energy needs, and a changing climate highlight the numerous water challenges facing society and water resources professionals. UCOWR and NIWR invite you to join leading researchers, educators, water managers, students, and other professionals from across the country and world to join the dialogue as we seek to develop solutions to complex water resources challenges and explore bridges between science and policy. We call your attention to a special focus on **Water Resilience**, to encourage conversations about how watersheds, ecosystems, infrastructure systems, governance structures, and communities can adapt and transform in the face of current and future stressors.

## Abstract Submission

Abstracts (300 words max.) for oral, poster, panel, lightning, and participatory presentations, should be submitted electronically.

The deadline to submit abstracts is:

**January 24, 2022**

If accepted and presented, abstracts will be available for viewing on the Conference Platform & App during and after the conference.

**SUBMIT ABSTRACT**

**Who is UCOWR?** [Universities Council on Water Resources](#) institutional members and delegates are leaders in water resources related research and education and represent various fields of natural and social science. UCOWR publishes the *Journal of Contemporary Water Research & Education*.

**Who is NIWR?** [The National Institutes for Water Resources](#) provides a national platform for research, training, and collaboration needed to manage our water resources. Housed in the country's top land grant universities, NIWR's institutes are uniquely positioned to assist state and federal governments in advancing sustainable management of our water supply.

## Presentations are invited on these and other water-related topics:

- ◆ Water Resources Management Under Climatic & Environmental Change
- ◆ Water & Health Connections
- ◆ Sustainable Irrigation
- ◆ Harmful Algal Blooms
- ◆ Water Quality Regulation in the "New Normal"
- ◆ Water Diplomacy for Development & National & International Security
- ◆ Agriculture Drainage
- ◆ Communicating Water Science
- ◆ Water Conservation Strategies
- ◆ Groundwater Management
- ◆ Tribal Water Issues
- ◆ Aquatic Invasive Species
- ◆ Drinking Water Equity
- ◆ Forests & Water
- ◆ Transboundary Water Issues
- ◆ Water Governance
- ◆ Water Education
- ◆ Water Extension
- ◆ Water Quality
- ◆ Emerging Contaminants
- ◆ Urban Water Management
- ◆ Water Infrastructure
- ◆ Water Treatment
- ◆ International Water Issues
- ◆ Coastal Issues
- ◆ Watershed Restoration Strategies
- ◆ Hydrologic Connectivity
- ◆ Water Sensors
- ◆ Hydrologic Modeling
- ◆ Remote Sensing
- ◆ GIS
- ◆ Water Resources Policy & Legal Challenges
- ◆ Water Economics
- ◆ Water Social/Environmental Justice
