

CALL FOR ABSTRACTS

2023 UCOWR/NIWR Annual Water Resources Conference
June 13-15, 2023, Fort Collins, CO

The conference planning committee invites abstract submissions for the 2023 UCOWR/NIWR Water Resources Conference. Please join us on the beautiful campus of Colorado State University at the base of the Rocky Mountains. A changing climate with severe droughts in the West and extreme floods in the East, water quality and reuse issues, and increased food and energy needs, highlight the numerous water challenges facing society and water resources professionals. UCOWR and NIWR invite you to engage with leading researchers, educators, water managers, students, and other professionals from across the globe as we seek to develop new and innovative collaborations and transdisciplinary solutions to complex water resources challenges.

Colorado State University Campus, Fort Collins, CO.

Abstract Submission

Abstracts (300 words max.) for oral, poster, panel, lightning, and participatory presentations should be submitted electronically. The deadline to submit abstracts is:

January 30, 2023

Notification of acceptance will be late February. If accepted and presented, abstracts will be available for viewing on the Conference Platform & App during and after the conference.

SUBMIT ABSTRACT

Who is UCOWR? [Universities Council on Water Resources](#) institutional members and delegates are leaders in water resources related research and education and represent various fields of natural and social science. UCOWR publishes the *Journal of Contemporary Water Research & Education*.

Who is NIWR? [The National Institutes for Water Resources](#) provides a national platform for research, training, and collaboration needed to manage our water resources. Housed in the country's top land grant universities, NIWR's institutes are uniquely positioned to assist state and federal governments in advancing sustainable management of our water supply.

Presentations are invited on these and other water-related topics:

- ◆ Water Resources Management Under Climatic & Environmental Change
- ◆ Sustainable Irrigation
- ◆ Drought
- ◆ Flood Management
- ◆ Tribal Water Issues
- ◆ Water Quality
- ◆ Water Diplomacy
- ◆ Agriculture Best Management Practices
- ◆ Communicating Water Science
- ◆ Water Conservation Strategies
- ◆ Groundwater Management
- ◆ Aquatic Invasive Species
- ◆ Drinking Water Equity
- ◆ Forests & Water
- ◆ Transboundary Water Issues
- ◆ Water Governance
- ◆ Water Education
- ◆ Water Extension
- ◆ Harmful Algal Blooms
- ◆ Emerging Contaminants
- ◆ Urban Water Management
- ◆ Water Infrastructure
- ◆ Water Treatment
- ◆ International Water Issues
- ◆ Coastal Issues
- ◆ Watershed Restoration Strategies
- ◆ Hydrologic Connectivity
- ◆ Water Sensors
- ◆ Hydrologic Modeling
- ◆ Remote Sensing
- ◆ Geographic Information Systems
- ◆ Water Resources Policy & Legal Challenges
- ◆ Water Economics
- ◆ Water Social/Environmental Justice
- ◆ Water & Health Connections
- ◆ Bridging Science and Policy
