

Are you an undergraduate working in water-related research? This opportunity is for you!

Your hard work could be published in a peer-reviewed journal.

Submit to this dedicated Issue of the *Journal of Contemporary Water Research & Education*.

Call for Papers

Who: Undergraduate researchers and mentors in water-related research.

What: Original research papers, case studies, research notes, and review papers from undergraduate research and honors theses.

When: Submission deadline is February 15, 2023. Contact us if you are busy wrapping up your research and need a bit more time. Publication target date is August 2023.

Where: The *Journal of Contemporary Water Research & Education* is publishing a Special Issue on Undergraduate Research and Education.

Why: Undergraduates are doing exciting research and need a publishing venue! JCWRE has successfully published an undergraduate-dedicated Issue in the past and it's time to put the spotlight on our future water scientists once again.

How: Visit www.ucowr.org for author instructions on how to prepare a manuscript. Manuscripts should be submitted to the Special Issue Editor: Dr. Brian Haggard, Arkansas Water Resources Center, haggard@uark.edu.

What is JCWRE?

The *Journal of Contemporary Water Research & Education* is published by UCOWR. It disseminates original, peer reviewed articles, research notes, and comprehensive reviews on applied research, policy, education, and extension in water and watershed science and management. JCWRE is published on Wiley Online Library and is available as Free Access around the world. Find out more at www.ucowr.org.

Questions?

Brian Haggard, Special Issue Editor, haggard@uark.edu

Jackie Gillespie, JCWRE Co-editor, crimjac@siu.edu

Karl Williard, JCWRE Co-editor, williard@siu.edu
